

Jayawanth Rayakota

Senior Data Analyst | Data Engineer

jayawanthrayakota@gmail.com | +1 (980) 500-9375 | Charlotte, NC

PROFESSIONAL SUMMARY

Senior Data Analyst and Data Engineer with 4 years of experience across finance, banking, and healthcare sectors. Expert in ETL pipeline design, cloud-native data architecture (AWS, Azure, Snowflake), predictive analytics, and regulatory compliance (HIPAA, SOX, GDPR, PCI-DSS). Proven ability to deliver scalable, data-driven solutions using Python, PySpark, SQL, Power BI, and Tableau in Agile environments.

TECHNICAL SKILLS

Cloud Platforms: AWS (Glue, S3, Redshift, Athena, Lambda, Step Functions, QuickSight), Azure (Data Lake, Data Factory, Blob Storage), Snowflake

Languages: Python, SQL, PySpark, PL/SQL, R

ETL & Integration: AWS Glue, Azure Data Factory, SSIS, Alteryx, Step Functions, AWS Lambda

Databases: SQL Server, PostgreSQL, MySQL, Oracle, Snowflake, AWS Redshift

Big Data & Analytics: Hadoop (HDFS, Hive), PySpark, Pandas, NumPy, Scikit-learn, SPSS, SAS

Visualization: Power BI, Tableau, AWS QuickSight, Advanced Excel

DevOps & Tools: Git, GitHub, Jenkins, Jira, Confluence, CI/CD Pipelines

Compliance: HIPAA, SOX, GDPR, PCI-DSS, IAM, KMS, Data Lineage, Data Governance

WORK EXPERIENCE

Senior Data Analyst

T. Rowe Price | Charlotte, NC | Feb 2025 – Present

- Engineered ETL workflows using AWS Glue, Step Functions, and Alteryx to ingest and harmonize data from Oracle, S3, and market feeds into Snowflake, enabling downstream analytics and model development.
- Built predictive models and applied statistical techniques to identify investment patterns, support NAV trend analysis, and deliver actionable insights to portfolio analysts and investment teams.
- Developed complex SQL/PL/SQL queries for data exploration, hypothesis testing, and validation across large-scale financial datasets, ensuring data quality and consistency.
- Designed and maintained data models, ER diagrams, and metadata repositories in Snowflake supporting schema evolution, model versioning, and regulatory compliance (SOX, PCI-DSS).
- Created interactive dashboards in Power BI, Tableau, and AWS QuickSight to visualize portfolio exposure, asset risk, and investment health for executives and compliance teams.
- Implemented Snowflake performance enhancements using clustering, partitioning, and cost-optimized compute strategies supporting high-volume data access and ML pipelines.
- Led Agile ceremonies including sprint planning, backlog refinement, and retrospectives, ensuring timely delivery of analytics use cases and data science enablement projects.

Technologies: Python, Pandas, NumPy, SQL, PL/SQL, AWS Glue, S3, Lambda, Step Functions, Athena, Oracle, Snowflake, Alteryx, Power BI, Tableau, QuickSight, Git, Agile/Scrum

Data Engineer

Kyndryl | Client: The Co-operative Bank | Bengaluru, IND | February 2021 – January 2024

- Designed end-to-end data pipelines for banking and financial datasets using PySpark, AWS Glue, and Step Functions, improving data throughput by 40% and pipeline reliability.
- Migrated large-scale datasets from Oracle to Snowflake, optimizing SQL logic and implementing clustering/partitioning strategies for cost-efficient big data analytics.
- Developed PCI-DSS-compliant data lakes using AWS Redshift, Snowflake, and PostgreSQL, consolidating structured and semi-structured (JSON, XML) datasets for regulatory reporting.
- Automated ETL workflows using SSIS, Python, and Alteryx, reducing manual processing time by 60% and increasing reporting frequency from weekly to daily.
- Built predictive analytics dashboards in Power BI, Tableau, and AWS QuickSight to surface financial KPIs, enabling data-driven decisions for executives and stakeholders.
- Integrated AWS S3, Athena, and Lambda with Snowflake to deliver event-driven, real-time analytics infrastructure for operational and compliance reporting.

- Applied data governance principles protecting sensitive financial data through IAM, KMS, and end-to-end data lineage practices.

Technologies: *PySpark, Python, Pandas, SQL, PL/SQL, AWS Glue, Redshift, Lambda, Athena, S3, Snowflake, PostgreSQL, Oracle, SSIS, Power BI, Tableau, QuickSight, Hadoop, SAS, SPSS, Alteryx, Git, Jira*

EDUCATION

Master of Science – Computer Science

University of North Carolina at Charlotte | Charlotte, NC | January 2024 – May 2025

CERTIFICATIONS

- AWS Certified Data Analytics – Specialty
- Microsoft Certified: Azure Data Engineer Associate
- Snowflake SnowPro Core Certification
- Tableau Desktop Specialist
